

## 25 Reasons Not To Start a Business

Many people go into new business ventures without a clue as to what they are really getting themselves and their family into. I have over twenty years experience in this matter and I have seen it all. Nothing surprises me anymore. I am sharing my knowledge with you to save you the trouble that I went through in my many experiences. It is great to look back and say if I knew what I know now I would have done this or that. Well I am giving you that knowledge with some very simple but very important real life pointers. The other side of this is you can learn the hard way which I call the school of hard knocks.

And these knocks can give you a concussion. Please read these carefully and if you have any question feel free to email me at [s.thomas@grytek.com](mailto:s.thomas@grytek.com). I will periodically update as I get time from my busy schedule because I have many more reasons why you should not start a business.
