

Children of Lafrowda

A heart-warming story about growing up in a village in the far south west of Cornwall. All good things must come to an end and that includes an idyllic Cornish childhood, and first love. In their final year at college the real world of work and responsibility seems far away and Connor and Amber spend one perfect Summer together, but they both know change is coming. Amber is destined for a career far away from Cornwall and when she leaves Connor struggles to get over losing her. Time is said to be a great healer, but not for Connor and when he meets Amber again, several years later, he realises he still loves her. Amber, however, seems happy with her life and feels Cornwall has little to offer; except her warm memories of that far off Summer.
