

King Arthur in History and Legend (Classic Reprint)

Excerpt from King Arthur in History and Legend This little book is an attempt to trace, in as clear and summary a form as possible, the origin and growth of King Arthurs historical and literary renown, and follows, largely, the lines of a chapter contributed by me to the first volume of The Cambridge History of English Literature. Although I have had, necessarily, to refer to much literary matter which is purely mythological, I have not sought to give any account of the speculations of those who in our own time have endeavoured to reconstruct and interpret the myths and beliefs of pre-historic Celtic heathendom. Nor have I made more than the briefest allusion to the subsidiary legends which, mainly through the agency of French romantic scribes, came to be associated with Arthurs name, and to be included in the matter of Britain as it emerged out of the age of high romance. The book deals, all but exclusively, with King Arthur himself, as he is known to chroniclers, romancers and poets. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
