

Alfrida and the Saxon Sword

A thrilling story of one girl's quest to save the world she knows from being destroyed by a cruel and ruthless Time Sentinel, Host Malador. When her father mysteriously disappears, Alfrida finds an ancient sword, which transports her back in time. She discovers that she has replaced her father as Guardian of the Time Keys. In order to rescue him and prevent the course of history being altered forever, she must find three of the ten Keys which are hidden throughout Time. Her friends are confident that she will succeed but Alfie is not so sure. With the backdrop of Saxon Britain, just days before the Battle of Hastings, the forbidding countryside provides no safe haven for them. King Harold is mustering his army and William the Conqueror's troops are roaming the countryside, killing, looting and destroying everything in their path. With Host Malador seeking to destroy her, she begins a treacherous journey in search of the Time Keys
