

Black settlers in rural Wisconsin

Years before the Civil War began, several Black families had settled in rural communities in Wisconsin. Concentrating on two such communities: Cheyenne Valley and Pleasant Ridge, author Zachary Cooper paints a vivid portrait of life for these settlers, who were pioneers in a literal and a symbolic sense. Some were freed or escaped slaves and some were citizens who had migrated from Southern states hoping to find a more welcoming community. With more than a dozen photographs to complement the text, this volume provides insight into a little-known facet of early settlement in Wisconsin.
