

## British Foreign Policy Towards Turkey, 1959-1965

This volume examines how Conservative and Labour governments in the UK related diplomatically to a plurality of Turkish governments between 1959 and 1965. With research based on newly-available Public Records Office archives, the author provides insight on British reactions to political events in Turkey and shows that in relation to the partition of Cyprus the crucial changes started as early as 1963, with Britain's indirect support.
