

California Justice: Shootouts, Lynchings and Assassinations in the Golden State

Introducing the victims and perpetrators responsible for California's most notorious shootouts, lynchings, and assassinations, this account shows how homemade justice is never black-and-white. In relating these histories, this discussion also analyzes how and why Hollywood storylines almost always follow the same skewed and unrealistic arc in which the bad guys abuse the good guys, the good guys take the high road until the bad guy has gone too far, and the good guy picks off the bad guys, one by one, in an increasingly dramatic fashion.
