

Alpha Wolfs Pet, Kept

In the sequel to Alpha Wolfs Pet, Hidden, Mia has two choices: remain hidden, frightened by the Russian mob determined to murder her, or become a sworn member and under the protection of Dominics werewolf pack. Being Dominics human lover is pleasurable while taxing. She wants more than he can give: commitment. Except werewolves never marry humans. Carnal desires aside, will she accept her low status within the pack in order to share what little time she has with Dominic until he takes a werewolf mate? Dominic is torn. If he gives Mia beta status, his pack will mutiny. If he doesnt, shell leave. Her stubborn independent nature will turn his world of strict pack rules upside down and hell be scorned as pack enforcer. He loves her, but his pack rules will never allow him to claim a human as his mate. Worse, hes drawn to Mias addictive blood. Was one taste too much? Despite breaking the witness protection rules and looming danger, Mia is determined to visit her ailing grandmother. Can Dominic protect her from the mob, as well as from his kind? As their passion reaches a fevered pitch, will circumstances crush their happiness?
