

From Critical to Speculative Idealism: The Philosophy of Solomon Maimon

This volume is the first part of a larger work on the philosophy of Solomon Maimon and its systematic place in the history of thought. Here we deal with some of the fundamental themes of Maimons philosophy, including his examination of Kants philosophy, his relation to such immediate post-Kantians as Reinhold and Schulze, and the relation between him and Fichte. The second volume will concern itself with such aspects of Maimons theoretical philosophy as the problem of the categories, the relation between idea and fiction, the concept of a universal soul, and practical philosophy, that is, ethics and the philosophy of law. Chapters V, VII, and X of this volume contain, with substantial revisions in form and content, material that appeared originally in scholarly periodicals. Grateful acknowledgment is made to the Hebrew Union College Annual for permission to use the substance of my articles: Solomon Maimons Treatment of the Problems of Antinomies and Its Relation to Maimonides, H.U.C.A., Vol. XXI; Maimon and Maimonides, H.U.C.A., Vol. XXII, part one; and to the Journal of the History of Ideas, for permission to use the substance of my essay Solomon Maimons Doctrine of Infinite Reason and Its Historical Relations, J.H.I., Vol. XIII, No. 2.
