

The Lost Principle: Or the Sectional Equilibrium; How It Was Created, How Destroyed, How It May Be Restored (Classic Reprint)

Excerpt from The Lost Principle: Or the Sectional Equilibrium; How It Was Created, How Destroyed, How It May Be Restored Mr. Madison was himself a member of the Convention of 1829, and heard the enquiry of Mr. Leigh, but said nothing. Why he stood mute on that occasion, when a true account of the fractional basis would have added strength to the side which he himself advocated, I know not. Let those who reverence the character and eulogize the memory of Madison divine his motives. His explanation of that fundamental part of the federal charter, might not have accorded well with his declared Opinions in federal politics, and it is possible that he shrunk from the keen and searching analysis of the powerful minds that illustrated that assemblage.
