

From the First Touch #1 (Jayme Sullivan series): Novelette

The day I met Lucas Wolfe was one of the most nerve racking of my life. My boss sent me to do her assignment, interviewing major movie stars and directors for a new sci-fi film that just premiered. Then I went in to interview Lucas. His eyes locked onto mine like a guided missile. With any other man I would have demanded being courted. I am not the kind of girl to unravel for a guy. Control and independence are the only things I have ever known to get me through life. But thats exactly what I did. I let him unravel me. And I didnt know how much I needed it until his hands were upon me. ***This novelette contains explicit and sexual content.***
