

Corby: A Pictorial History

Corby has been a community for over a thousand years, but for most of that time it was just a sleepy and insignificant forest village. Its spectacular growth from a population of just 1,500 souls, some 60 years ago, to become the second largest town in the county, with some 55,000 inhabitants today, bringing national significance and Borough status, has been well within the life-span of many who can still remember the original village. This book sets out to provide an insight into the early community, before and during the years of expansion, through to the remarkable recovery of the town after the closure of the Works in 1980.
