

Japans Evolving Foreign Policy Doctrine: From Yoshida to Miyazawa

During half a century after the war Japans economy was built up from scratch to the worlds number two, while its foreign policy has been described by many as passive and even verging on being non-existent. As a contrast, this study evinces how the foundations of Japans foreign policy were laid in the early postwar period, and how postwar policies have been characterized by pervasive continuity, guided by distinct national goals and expressed in clear-cut national role conceptions.
