

Kierkegaard and Levinas: The Subjunctive Mood (Transcending Boundaries in Philosophy and Theology)

The Danish Christian existentialist Søren Kierkegaard (1813-1855) and the Jewish Lithuanian-born French interpreter of modern phenomenology Emmanuel Levinas (1906-1995) have enabled theology and philosophy to illuminate and confront one another in radical and important ways. This book addresses the theological and philosophical thought of both Kierkegaard and Levinas with a focus on the special form that exists in the grammar of many languages for cases of uncertainty, possibility, hypothesis and for expressions of hope: the subjunctive mood.

As well as presenting arguments and observations about Kierkegaard and Levinas through an analysis of the subjunctive mood, Patrick Sheil offers an interesting and accessible way into the thought of these two major European philosophers and he explores a wide range of Kierkegaardian and Levinasian texts throughout.
