

## KOMECE Activity Education (age1.5-6): KOMECE Book (Chinese Edition)

Early Childhood Education Characteristics of KOMECE Early Reading Reading is the golden key to potential development. According to the childrens psychological characteristics, KOMECE uses Activity Literacy, Game Literacy, Scenario Literacy, Reading Literacy etc., so that children can recognize objects and develop literacy simultaneously, speak and read simultaneously, and can read extensively after three years of study. Early Foreign Language Study English is the passport to the world. KOMECE uses new teaching methods to help children memorize letters, word and sentences happily, interestingly and quickly, gradually developing the habit of and the ability to read English books. Early Mathematics Mathematics is the foundation of all science. At the mathematics sensitive period of early childhood, KOMECE focuses mathematics education on the senses, mainly on operational learning and then on activity game learning. This helps children learn to calculate through movement and, stimulates childrens interest in learning mathematics by developing mathematical thinking skills, and mental agility, flexibility, and creativity. Arts Training Children participate in dance, piano, chess, calligraphy, painting, imaginary painting, clay and other activities. They are nurtured in a colorful art environment. All of them are happy and lively, with broad interests, positive and confident attitudes, and courage. Childrens emotional experience, artistic sensibility, artistic imagination and creativity get nurtured and their artistic potentials get developed.
