Formation of Oxygenated Fatty Acids by Fungal Enzymes **Lipid Biotechnology - Google Books Result**

Lipid biotechnology is used as vehicle to uncover novel oxylipins and linked nano-mechanics. **none** The research activities in Lipids Biotechnology & Engineering Group can be refining of crude oils into edible oil & fats as well as lipid analysis & quality control **none** **Lipid Biotechnology - Kursuskatalog - Aarhus Universitet** The

biotechnological transformation of vegetable oils and animal fats has been successfully developed up to an industrial scale in recent years. However Discussing a variety of lipid-active enzymes from animal, plant, fungal, and microbial sources, Lipid Biotechnology covers modern techniques in genetic **Enzymatic Approaches to the Production of**
