

Making Citizens: Rousseaus Political Theory of Culture

By analysing Rousseaus conception of the general will, Zev Trachtenberg characterises the attitude of civic virtue Rousseau believes individuals must have to cooperate successfully in society. Rousseau holds that culture affects political life by either fostering or discouraging civic virtue. However, while the cultural institutions Rousseau endorses would motivate citizens to obey the law, they would not prepare citizens to help frame it. Rousseaus view of culture thus works against his account of legitimacy, and Trachtenberg concludes that Rousseaus political theory as a whole is inconsistent.
