

Megans Mark: The Breeds

In the first book of her erotic new series, Lora Leigh invites you to an intriguing world where genetically altered Breeds and the humans who created them commingle - and sometimes cross the boundaries of desire.... Cursed with the extraordinary power to feel other peoples emotions, Megan Fields has tucked herself away in a remote corner of New Mexico, working as a small-town sheriffs deputy. She finds solace in the silence and heat of the desert. But when Breeds begin dying on her watch, Megan realizes that the secrets from her past cant stay buried forever. Someone is out for blood - her blood. An arrogant Feline Breed, Braden Arness broods with feral intensity. His mission to solve the mysterious murders brings him to Megan, a woman who accosts his senses like no other. Only with him can she let down her guard - and surrender to the insatiable hunger that wracks her body. But as they team up to hunt the elusive killers, Braden and Megan find themselves becoming the prey....
