

## Moon Over Montana (Montana Mavericks)

Linda Fioretti was a grown woman. She left Los Angeles and a lousy marriage to make a new life for herself in Rumor, Montana. And that meant discovering just who she had become over the years. An artist? A teacher? Or the kind of woman who fell in love at first sight? Carpenter Tag Kingsley had been hired to renovate her apartment, and when he swaggered into her home, Linda's pulse began to hammer. From his kind words to his sexy smile, this single father's dangerous sensuality and tenderness were unnervingly attractive almost enough to tear down the walls around her heart.
