

Parkers Woods: Blood Fast

Vampires have evolved. They don't have to kill anybody to exist. They don't have to... but... some still do. Finding yourself attracted to a vampire can take you by surprise. It's a lot to deal with. When Taylor finds herself falling deeply in love with the most feared and mysterious man in town, she finds it necessary to hide her relationship with him from her family, and friends. Surfacing accusations bring their love closer to exposure, and connects her to a series of murders as she realizes the man she loves is also suspected of killing her uncle, who was literally torn apart just weeks ago.
