

# A Grammar of Mangghuer: A Mongolic Language of Chinas Qinghai-Gansu Sprachbund (Routledge Studies in Asian Linguistics)

This book is a grammar of Mangghuer, a Mongolic language spoken by approximately 25,000 people in Chinas northwestern Qinghai Province. Mangghuer is virtually unknown outside China, and no grammar of Mangghuer has ever been published in any language. The books primary importance is thus as a systematic grammatical description of a little-known language. The book also makes a significant contribution to comparative Mongolic studies. In addition to the synchronic description of Mangghuer, extensive comparison with other Mongolic languages is included, demonstrating the genetic relationship of Mangghuer within that family. In the course of describing Mangghuer linguistic structures, the book also examines issues of interest to linguistic typologists.
