

Birthrite (Legacy Series Book 2)

No job, new gift, a pack of wolves, and two feral mates. How can Shawnee possibly decide her future and keep her loved ones happy? Or worse, satisfied. When perfectly notable people begin vanishing without a trace, Shawnee can't help but wonder if the Andrus has returned to avenge their exposure. With no leads and the missing count rising, human authorities and the Sept find themselves battling an unknown force threatening their most precious and vulnerable counterparts. Can the Sept come together to recover the lost in time to save them from everlasting horror? Will Shawnee's fear prevail, or will she find the strength to face a new set of challenges? She's got time to decide. But not long.
