

## Eloquent Sons of the South, Vol. 1: A Handbook of Southern Oratory (Classic Reprint)

Excerpt from Eloquent Sons of the South, Vol. 1: A Handbook of Southern Oratory In compiling these volumes the task has been one of determining what to exclude; for the small space afforded might easily have been completely filled by the notable speeches of any one of a half dozen Southern orators of renown. The same has been true also in regard to the choice of men from whose work selections should be made. The aim has been to give representative examples of the work of the most widely known statesmen and publicists of the South - those who had the greatest influence in the establishment and development of the Union, those who with admirable conviction ably supported the Confederacy and those who later rendered the greatest possible service in the upbuilding of the South after a devastating war had done its work of destruction and disintegration. Some names of those not known best as orators have been chosen, and extracts from short addresses given. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
