

## Studs & Stilettos

Studs and Stilettos is a contemporary, romantic novel featuring the young, single Camilla. Unemployed and in debt, 26 year old Camilla needs money to pay the rent for the flat she shares with chums Pippa (a nurse) and Brutus ( a sex appliance salesman). Invited for interview as a school teacher at an all boys academy, Camilla meets another applicant, James Beeter and, following a confusing chat where the Head who thinks she is a rugby fanatic, Camilla is offered the job of Chemistry teacher, replacing the sacked, Derek the druggie Bicks. Teaching little boys is simple but Camilla finds that male adolescents are not easy to handle and when she is told to teach Biology a subject she has never done- she is suddenly out of her depth. However, the other staff are helpful particularly Charlie Best and Camilla keeps up the pretence of her rugby interests so that she and Charlie can get to know each other better.
