

The World Storm and Beyond (Classic Reprint)

Excerpt from The World Storm and Beyond I have tried in the following pages to set forth in their historical perspective some of the causes of the great war and also to trace some of its probable consequences. Never in all history was it so difficult to put the significance of a war between the covers of a single book, for aside from the difficulty of distinguishing in the prevailing confusion what is important from what is incidental, never before were so many and such longstanding dynastic, national, and racial ambitions the tools of such complex social forces. Looking out over Europe to-day one sees as from all sides of a vast arena an outrushing of all the wild beasts which for a century society has kept partially pacified. All the problems which we have inherited from the past and have elbowed toward the future, making the present comfortable with compromise, have come out under cover of the storm and are seeking in war those solutions which in peace were seemingly impossible of attainment. It is the flaring up of these long-smoldering aspirations of humanity for larger freedom and better conditions of life that is giving to the present conflict a meaning immeasurably greater and an issue of far vaster consequence than at first could possibly be divined. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally

left to preserve the state of such historical works.
