

The Crisis: Or the Enemies of America Unmasked (Classic Reprint)

Excerpt from The Crisis: Or the Enemies of America UnmaskedThe most remarkable of all the circumstances, which distinguish our own country from others, is its rapid growth. In the beginning of the seventeenth century it was a wilderness, inhabited only by savages and wild beasts. In the middle of the nineteenth, it rivals the oldest and proudest nations of the world in population, wealth, intelligence and industry. When the territory of the United States was first trodden by the settlers of Virginia, England, France and Germany could boast centuries upon centuries of cultivation, with some little knowledge of civil and religious freedom. Since that period America has shown the birth, childhood, youth and manhood of a model republic, which Europe has repeatedly but vainly endeavored to copy. All this implies rapid progress.
