

The Dreamkeepers: Successful Teachers of African American Children (Jossey-Bass Education Series)

Education, like electricity, needs a conduit, a teacher, through which to transmit its power-- i.e., the discovery and continuity of information, knowledge, wisdom, experience, and culture. Through the stories and experiences of eight successful teacher-transmitters, *The Dreamkeepers* keeps hope alive for educating young African Americans. --Reverend Jesse L. Jackson, president and founder, National Rainbow Coalition In this beautifully written book Ladson-Billings illustrates the inspiring influence of a select group of teachers who keep the dreams alive for African American students. ?Henry M. Levin, David Jacks professor of Higher Education, Stanford University Ladson-Billings portraits, interwoven with personal reflections, challenge readers to envision intellectually rigorous and culturally relevant classrooms that have the power to improve the lives of not just African American students but all children.
