

The Flame of Freedom: The German Struggle Against Hitler (Der Widerstand, Dissent and Resistance in the Third Reich)

This is one of a series on German resistance to the Third Reich, published to mark the 50th anniversary of the July 1944 assassination attempt on Hitler. The series features reprinted editions of classic works on the subject, written by some of the protagonists in the movements that struggled against the Nazi regime, and also new studies offering a fresh perspective on this aspect of German history. In this book Zeller covers the variety of separate resistance activities, and focuses on the conspiracy within the Wehrmacht that led to the 1944 assassination attempt.
