

The German Home Front 1939-45 (Elite)

This book outlines and illustrates the living conditions of German civilians in World War II, and the Nazi states basic structure. German families suffered the same hardships as British - labour conscription, extra civic duties, severe shortages of food and necessities, disrupted transport, homelessness and evacuation, separation from loved ones and, for many, bereavement. However, there were important differences. The dictator for whom many had voted was leading them to ruin; unequalled death and devastation ensued from Allied air raids; and every aspect of life was caged around with repressive decrees that began to replace the true rule of law well before September 1939.
