

## Times Are Square: Working In America

The Great Recession was a devastating blow to many American workers and their American dreams. From 2000-2014 millions of Americans lost their jobs, family, and even hope. The author brings this daunting time-period to life as he journeys through his experiences as a professional and young man aspiring to become a great success. What did it take him to avoid the loss of hope? The journey is not an easy one, and one has to be clever and a little lucky to be one of the few who stands on top.
