

## To the Ends of the Earth

Photographer Cat Cochran has been to exotic places most people only dream about - but all she wants to do is settle down and get her life in order. One last assignment and she can put her past behind her. But first she must photograph the mysterious and elusive ship designer T.H. Danvers and his awesome creations. Travis Danvers is dangerous - a millionaire with an athletes body; an enigmatic charmer capable of breaking down Cats well-constructed defenses with a buccaneers arrogance and flourish. She knows she must resist him, for experience has taught her that pain is the eventual price of pleasure to be found in the arms of such a man. But caught in the waves of a sensual sea, Cat hears siren whisper seductively, telling her to abandon all caution; to ride with Travis on the winds of forever.
