

Nietzsches Zarathustra and Political Thought (Studies in Social and Political Theory, V. 29)

Dr. Stewart identifies nausea as the central metaphor of Zarathustra, a nausea that accompanies a contempt for mediocrity, for democratic systems, indeed for bourgeois existence in general; but it is a nausea that more centrally accompanies Nietzsches perspectivism. Thus, it is the nausea that occurs in the face of the chaotic and indeterminate character of the universe and of human existence.
