

Unusual Occupations and Unusually Organized Occupations (Current Research on Occupations and Professions)

Hardbound. This volume contains in-depth or comparative case studies of specific occupations in America and other countries. The special emphasis of this collection is upon unusual occupations and unusually organized occupations. Through the focus on the unusual, our volume brings into focus the usual taken-for-grantedness of the occupational world, which is typically seen only from the focus on prestigious professions. Included are analyses of tattoo artists, exotic dancers, sex workers, correctional officers, catholic liturgists, marginalized computer workers, university professors in foreign military extension programs, product protectors, traveling nurses and clerical temporary workers. The audience for this book includes university students and faculty.
